Dear Alexandra:

A very big THANK YOU for delivering our labels yesterday. You constantly amaze me. You find the time – when there is none. You get the job done – with impossible deadlines. You perform miracles – when equipment breaks down. You find solutions – when everyone else is still embedded in the problem.

The image you have created for my business is outstanding. I have always been impressed with the professionalism and creativity you bring to every printing and production requirement we have challenged you with the past four years. And then you go the extra mile – with service!

It is a pleasure to do business with you.

Sincerely,

Linda Hale
